120 MG

HYALURONIC ACID

- Low molecular weight for excellent bioavailability:
68% after 24 hours
- Moisturizes the skin from the inside, reduces the depth of
wrinkles
- Sustains improvement of skin elasticity

2 MORE SKIN ELASTICITY

QUALITY AND SAFETY MATTER

MF11RCE® RED CLOVER ISOFLAVONES

- The **Austrian Menopause Society** recommends isoflavones as the means of first choice to meet vasomotor complaints during menopause .¹⁾
- The **European Food Safety Authority (EFSA)**²⁾ confirmed long-term safety on the intake of isoflavones: A comprehensive risk assessment which valuated numerous human studies concluded that there is no sign of adverse effects on hormone-dependent tissue such as breast, uterus or thyroid. Long-term safety was confirmed for a daily dose of up to 150 mg of isoflavones over a period of at least 3 years.
- One MF11RCE® study of the Karl-Landsteiner-Institute for cell-focused therapy in Gynecology proves **safety regarding endometrial thickness**³⁾.

„ISOFLAVONES SUITABLE FOR
LONG-TERM ADMINISTRATION“¹⁻²⁾

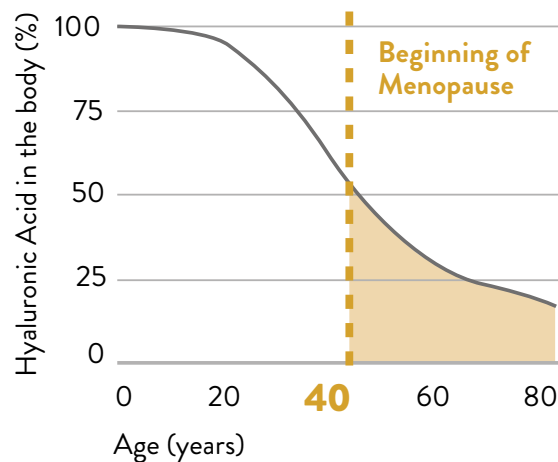

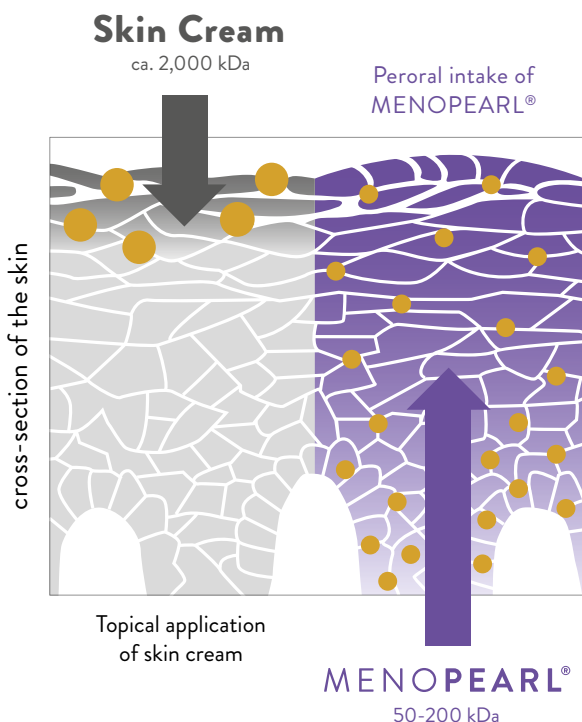

LOW MOLECULAR WEIGHT FOR OPTIMUM BIOAVAILABILITY

HYALURONIC ACID

Age related decrease of the HA-content in the body

SUSTAINED MOISTURIZING OF THE SKIN FOR MORE ELASTICITY AND FIRMNESS¹⁰⁻¹²⁾

The **low molecular weight Hyaluronic Acid** in MENOPEARL® spreads throughout the bloodstream and reaches **all skin layers**, thus revealing its efficacy from the inside.

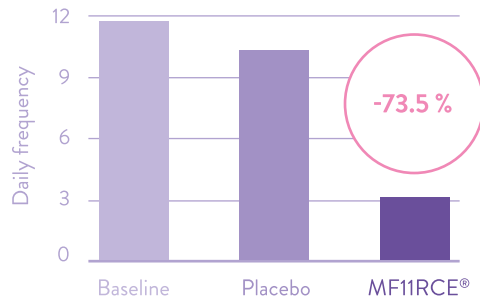

Only low molecular weight HA shows optimal bioavailability.

CLINICAL STUDIES

WHAT WOMEN SAY ABOUT MENOPEARL®***

★★★★★ Better skin, better mood

My gynecologist recommended Menopearl. After about 2 months I noticed that my mood swings have improved significantly, the complexion has also improved (less wrinkle depth). Interestingly, my knee pain has improved significantly, maybe it comes from hyaluronic acid. So the price is justified for me, I will continue to take it.

★★★★★ Feeling more beautiful and stronger

I've been taking Menopearl for 3 months and I'm thrilled. I feel stronger, physically and mentally, I am more balanced and relaxed. In addition, I should also appear radiant to the outside, at least I get many compliments and feel happy as a woman again. My life has got a new quality. Great product.

★★★★★ Change complaints

For about a year now I had massive problems with menopausal complaints ... sweating ... flushing ... insomnia ... hair loss. I had tried several products and had no success. Then my gynecologist recommended Menopearl to me and after about 6 weeks the symptoms were significantly better. If I happen to forget to take Menopearl, I notice it immediately the next day. So I'm super happy.

★★★★★ My gynecologist recommended this product to me ...

I had some of the typical complaints. At first nothing changed, but suddenly all complaints subsided 2 months ago. No hot flashes at night, no chest pain ... the quality of life is restored with the product and thus this period of life can also be felt as pleasant. In my view, it did not cause any "side effects" either.
